

What is Fleet Track®?

As a practical and efficient equipment tracking tool, Fleet Track® provides a user-friendly interface and enhanced functionality that generates a comprehensive view of your equipment.

Analyze Spending

Analyze spending according to fleet goals and budgets.

Manage Fleet Services

View planned maintenance services and related invoices.

Generate Reports

Generate reports that can help you analyze your fleet.

Analyze Fleet Usage

Know when to relocate, replace, and retire equipment.

How can Fleet Track help you?

As a practical and efficient equipment tracking tool, Fleet Track provides a user-friendly interface and enhanced functionality that generates a comprehensive view of your equipment.

By navigating through the Fleet Track interface, you may quickly view planned maintenance services and all related invoices, generate reports across many parameters, analyze spending over a variety of date ranges, and track specific equipment hours.

Fleet Track provides clear answers to essential questions about your fleet.

- How many assets do I have?
- Where are they located?
- How much do they cost me?
- Am I within budget?
- How am I utilizing each asset?
- Will I incur overtime cost?
- Do I have problem assets?
- Should I rotate my fleet?
